

CITIZEN TRANSPORTATION ADVISORY BOARD

The Citizen Transportation Advisory Board met Monday, December 5, 2022, remotely.

The following Board members were present: Thomas Donkle, Jimmy Jones, Steve Teets, Wendi Young, Bart Smith, and James Bailey

Absent: Ray Amaya (excused) and Amanda Castle (unexcused)

City staff included Will Jones, Paul Trombino, Bhooshan Karnik, and Steven Younkin

I. Tom called the meeting to order at 3:02 pm

II. APPROVAL OF MINUTES

The minutes from October were approved by a motion and unanimous vote of the Board members present.

III. CHANGES TO AGENDA AND/OR ANNOUNCEMENTS

None

IV. PUBLIC COMMENT

Jim Riesberg from Greely Walks talked to the board about the group he is part of. He wants to create awareness of how great walking is as a health benefit. This group is non-profit, and it is funded by a grant from AARP

Transportation Master Plan Update/Discussion: Paul Trombino

The plan received the last updated version on December 2nd. There will be a final revision that will take some editing. It will have to be open to the public for comments for at least 3 weeks, from January 2nd to January 23rd. It will come back to CTAB for the January 23rd meeting for a vote, and Council will adopt the plan on their February 7 meeting.

8th Avenue Potential Cross Section Follow Up: Bhooshan Karnik

At the last meeting there were 5 different options presented to the board.

Board members shared the likes and dislikes on the options, and asked questions on the preferred option.

Development Traffic Analysis Discussion: Steven Younkin

Major upcoming developments in the works for Greeley:

Delantero at US 34 and CR17: an 822-acre neighborhood development that will include residential, employment, schools, and trails. This development will be divided into phases, the first phase will include roundabouts on Highway 257.

At 83rd Ave and 10th St: There are three adjacent potential developments (Schneider Farms, Boomerang Ranch, and Two Rivers Marketplace). There are potential signal lights needed at 83rd Ave and 7th St and 89th Ave and 10th St, and the consideration of a 4th St expansion.

At 71st Ave and 10th St: Three adjacent developments (City Center West A&B and Townhomes). Potential transportation improvements and considering the impact these will have to Westridge Academy

Round Table & Proposed Agenda items for January 23, 2023: All

- Transportation Master Plan Vote
- 2022 CIP Projects Recap
- Ridership Update

- Bustang Representative – Maps and routes
- Traffic Lights replacement/fiber – February
- EV charging stations - February

The meeting adjourned at 4:48 pm.

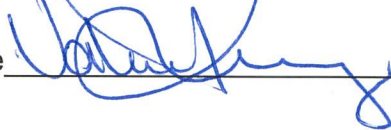

Respectfully submitted,

Thomas Donkle
Chairman

GREELEY WALKS . . . FOR THE HEALTH OF IT !

"Walking is the closest thing we have for a wonder drug".

Dr. Thomas Frieden, former director of the Center for Disease Control and Prevention

Help us make Greeley a city where any focus on mobility includes an emphasis on the health benefits of walking/rolling.

In his book, *In Praise of Walking*, Shane O'Mara, a brain researcher and neuroscientist shares with readers:

We all, know that it is good for our hearts. But walking is also beneficial for the rest of our body. Walking helps protect and repair organs that have been subject to stresses and strains. It is good for the gut, assisting the passage of food through the intestines. Regular walking also acts as a brake on the aging of our brains, and can, in an important sense, reverse it ... Reliable, regular, aerobic exercise can actually produce new cells in the hippocampus, the part of the brain that supports learning and memory. Regular exercise also stimulates the production of an important molecule that assists in brain plasticity... The phrase "movement is medicine" is correct: no drug has all of these positive effects.

Our mission for **GREELEY WALKS** is to:

- Create public awareness and knowledge of the joy and health benefits of walking/rolling
- Create a cultural shift where walking/rolling is embraced by the residents and enabled by community development to make it safe, accessible and enjoyable
- Help increase the collaboration of diverse public entities to work in concert to enhance mobility options for all residents regardless of age or physical ability
- To map existing paths, bike lanes and trails and create suggested routes that have significant historical, architectural, environmental, or commercial interest
- and to Promote the importance of lighting, resting locations, public spaces, informative signage, restrooms, water stops and adjacent transit stops along designated routes.

We are working in conjunction with **America Walks**, a nonprofit national organization founded in 1996 to lead the way in creating pedestrian-friendly, safe spaces for people to walk and move by providing training and networking opportunities for advocates throughout the country.

Jazz Garrison and Jim Riesberg have completed the training program and are now funded by a grant from AARP.
